

RTS Realtime Systems Group

The solution provider for the global trading community – today and tomorrow.

Today RTS is a leading provider of high-performance trading solutions including state-of-the-art execution capabilities and worldwide data centre facilities.

Well-known for our exceptional options platform, the company has made substantial investments in technology to become a leader in professional trading solutions for all electronically traded asset classes. RTS has been among the first ISVs to offer state-of-the-art and 'plug 'n play hosting' solutions and facilitates trading on nearly 100 exchanges via proximity access and high-speed connectivity gateways. Ninety-one per cent of the world's most active contracts can be traded with RTS' solutions.

Today the offering encompasses solutions embracing the needs of hedge funds, institutional clients, brokerage firms, introducing brokers, CTAs, algorithmic traders and other professional traders.

New corporate identity

RTS is proud to unveil its new corporate logo as it

symbolises the exciting evolution of RTS. From the beginning of electronic trading in the late 80's in Europe, RTS has emerged to become a truly global organisation offering breakthrough technologies that enhance the trading experience and provide unprecedented efficiencies.

The new logo reflects the firm's mission and core values. The three horizontal bars represent high performance, robustness and innovative engineering – what RTS believes to be the three cornerstones of a successful trading solution.

The dynamic shape represents a company that is on the move and continually reaching to develop state-of-the-art technologies and help clients gain a competitive edge.

Much more than a logo

Our new identity is about much more than a logo. Our

The logo for ERTS (Realtime Systems) features the letters 'ERTS' in a bold, teal, sans-serif font. The letter 'E' is stylized with three horizontal bars extending to the left, creating a dynamic, forward-moving shape.

REALTIME SYSTEMS

work has focused on redefining our key messages about our offering that reflects our more client-driven approach, providing comprehensive tailored trading solutions, rather than just software products. We want you to focus on trading while we assume the challenges of ensuring that you have cutting-edge technology at your fingertips and cost efficiencies that respect your budget constraints.
